MEET HARMONIC TENSION ARTIST YEHONATAN KOENIG

SHANA NYS DAMBROT JANUARY 30, 2023.

Describing both a process of drawing and a way of being, Yehonatan Koenig's mesmerizing, gently fractal ink on paper drawings evince a harmonic tension between creation and dissolution, pattern and chaos, macro and micro, certainty and exploration — and most saliently, between states of knowing and not knowing. Both a personal chronicle of experiences in consciousness and a physical manifestation of universal forces at work, Koenig's work embraces his omnivorous curiosity and polyvalent background. In addition to his appreciation for the humanist power embedded in the murmurations of his organic, ritualistic drawings, Koenig's experiences in technology, music, immersive design, gaming, and various hybrid permutations all inform his perspective of constant discovery. His latest exhibition opens at Bestor Architecture Gallery this week.
